MI CASA Property Solutions

Brokerage Operating System

Internal Product Guide

Abu Dhabi Licensed Brokerage • CN-3762725

What is BOS?

One system to replace spreadsheets, WhatsApp groups, and disconnected tools

BOS is a role-based brokerage operating system — a single web application where every stakeholder manages the full property transaction lifecycle, from lead intake through deal closure, with built-in compliance and audit trails.

Operator

Full control room: pipeline, compliance, commissions, team

Broker

My leads, my deals, my earnings, daily task list

Legal Owner

Oversight, approvals, audit reports, governance

Investor

Property shortlists, deal room, portfolio tracker

System Overview

Four-layer architecture from lead intake to execution

MI CASA Property Solutions

1 Lead Acquisition

Property Finder (primary), Bayut, website forms, WhatsApp inbound, referrals, walk-ins

2 Regulatory Verification

DARI project verification • Madmoun listing status • ADREC broker license — hard gates, no bypass

3 Automation & Intelligence

Workflow rules (consent, time windows, DNCR) execute. AI interprets, drafts, summarizes — humans approve

4 Execution & Analytics

Human-approved actions via Execution Gateway. All channels auto-logged. Funnel + compliance dashboards

Daily Operations — Pipeline & CRM

Prospect → Lead → Deal lifecycle with scoring and aging alerts

Prospects → Leads → Deals → Closed

Pipeline Views

Kanban boards with drag-and-drop
stage management, filtered by pipeline type (primary, secondary,
off-plan)

Lead Scoring

Automated qualification scoring with budget, timeline, readiness and intent signals — AI-assisted but human-confirmed

Deal State Rail

Linear workflow tracking from EOI through NOC to transfer. Compliance gates enforce sequence.
Aging alerts on stale items

Listings & Marketing

Property listings, portal publishing, campaigns, and AI-powered copy

Listing Management

Create, edit, and track property listings with photo galleries, pricing, and attributes. Import from external sources.

Portal Publishing

Publish to Property Finder (primary) and Bayut. XML feed generation, status sync, and inquiry ingestion.

Campaign Builder

Email campaigns via SendGrid, SMS via Twilio, WhatsApp outreach. Track opens, clicks, and conversions.

Marketing AI

AI-generated listing descriptions, marketing copy, and blog insights. Generate, review, approve workflow.

Documents & Compliance

18 templates, form wizard, signature tracking, and regulatory gates

18 Document Templates

01 Seller/Landlord Authorization
02 Buyer/Tenant Representation
03 Listing Authorization
04 Agent License Record
05 Company Trade License
06 Agent-to-Agent Agreement
07 Offer Letter / EOI
08 MOU (Pre-SPA)
09 Reservation/Booking Form
10 Deal Closing Checklist
11 NOC Request Tracker
12 Commission VAT Invoice
13 Commission Split Sheet
14 Refund/Cancellation Form
15 Financial Reconciliation
16 Client Data Consent
17 Complaint/Dispute Register
18 Internal Governance Pack

Compliance Gates

DARI Project/unit verification

Madmoun Listing ref status

ADREC Broker license check

Document Workflow

Form Wizard — step-by-step guided fill

PDF Generation — branded letterhead

Signature Tracking — DocuSign integration

Evidence Linking — immutable audit chain

Commissions & Finance

Ledger, splits, VAT invoicing, and payout management

MI CASA Property Solutions

Commission Ledger

Auto-generated commission records linked to closed deals. Calculation trace with gross/net amounts and split percentages.

Broker Split Manager

Configure commission splits per deal with role-based assignments. Supports multi-broker deals with customizable percentages.

Payout Batch Builder

Group approved commissions into payout batches. Batch cards show totals, broker counts, and approval status.

VAT Invoice Generation

Generate branded commission invoices with TRN, VAT calculation, and company letterhead. PDF export ready for accounting.

Mi Ai Capabilities

Drafts and advises — never executes autonomously

MI CASA Property Solutions

Core Principle: AI drafts, humans review and approve. No autonomous sending. No compliance decisions by AI.

Lead Qualification

Analyses lead data and suggests scoring. Agent confirms or adjusts.

Property Matching

Matches client requirements to available inventory. Ranked suggestions.

Marketing Copy

Generates listing descriptions, ad copy, and email templates. Review before publishing.

Follow-Up Drafting

Drafts WhatsApp/email follow-ups based on conversation context. Agent sends manually.

Listing FAQ

Auto-generates property FAQs from listing data. Agent reviews and approves before display.

Document Summaries

Summarizes deal timelines and compliance status. Operational awareness, not decisions.

Team & Communication

Directory, meetings, multi-channel outreach, and viewing scheduler

MI CASA Property Solutions

Team Directory

Broker profiles with license status, assignment history, and performance metrics. Role-based invitations.

Meeting Scheduler

Team meetings and client viewings. Calendar integration with reminders and confirmation workflows.

WhatsApp (WABA)

Company WhatsApp Business API. All messages logged to lead timeline. Template-based outreach.

Email & SMS

SendGrid email campaigns and Twilio SMS notifications. Delivery tracking and template management.

Viewing Scheduler

Book and manage property viewings. Completion tracking with outcome recording and follow-up triggers.

Communication History

Unified timeline per lead/deal showing all channels — calls, messages, emails, meetings. Full audit trail.

Roles & Navigation Guide

What each user role sees in the system

MI CASA Property Solutions

Operator

Full control room — sees everything, manages everything

Dashboard • Prospects • Leads • Deals • Listings • Documents • Commissions • Marketing • Teams • Mi Ai • Settings

Broker

Personal workspace — focused on assigned work and performance

My Day • My Leads • My Deals • My Listings • Documents • My Earnings • Viewings

Legal Owner

Oversight and governance — approvals, audits, compliance monitoring

Dashboard • Approvals • Compliance • Audit Trail • Team • Commissions • Reports

Investor

Client-facing — property discovery and deal participation

Profile • Property Shortlists • Deal Room • Portfolio • Mortgage Calculator
